

Getting Started at an AWS Workshop

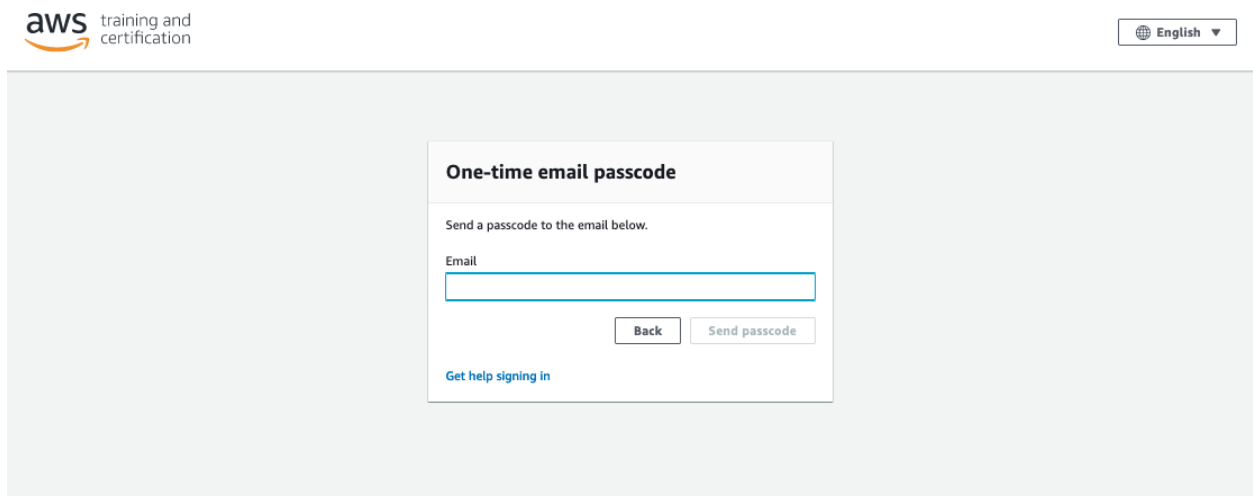

This page guides you through the prerequisites steps before starting the lab when attending an event hosted by AWS.

1. If you are part of a hosted AWS event, the Workshop Studio Portal will be used. [Click here](#) to join. Then click the **Email One-Time Password (OTP)** button. You might get a vanity URL, pre-filled with the access code from your team captain, which will take you directly to the screen below.

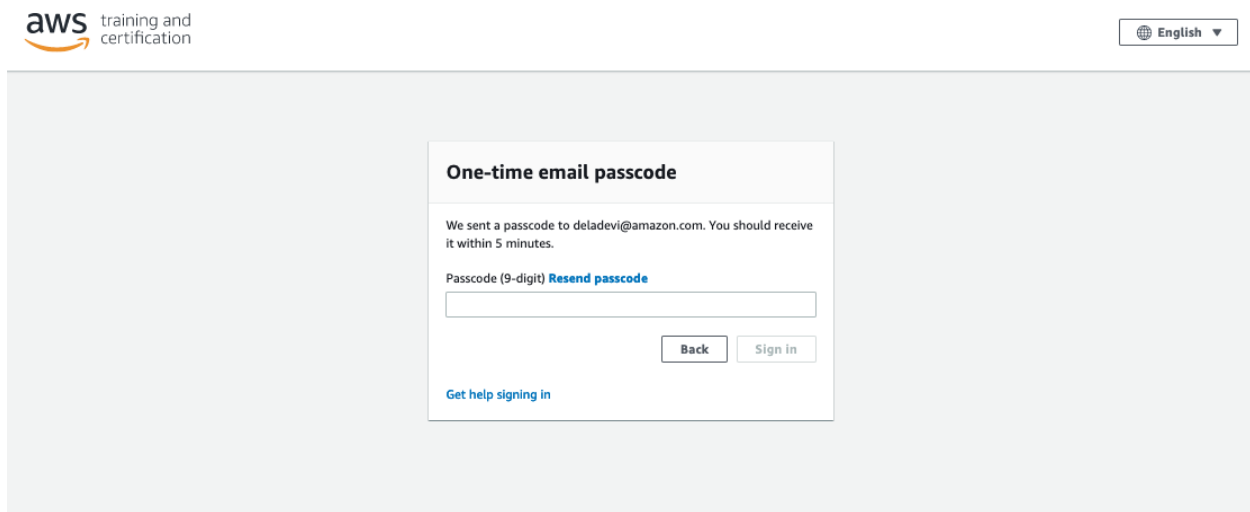

The screenshot shows the AWS Workshop Studio sign-in interface. At the top, there's a dark blue header with the 'aws workshop studio' logo and a settings icon. Below the header, a breadcrumb trail reads 'Workshop Studio > Sign in'. The main content area is a light gray box containing a white card titled 'Sign in' with the subtitle 'Choose a preferred sign-in method'. Inside the card, there are three sign-in options: 'Email one-time password (OTP)' (highlighted with an orange border), 'Login with Amazon' (with the subtitle 'Login with your Amazon.com retail account'), and 'Amazon employee' (with the subtitle 'Login with your Amazon Corporate account. Only for Amazon Employees.').

2. Enter your own email account and click the **Send passcode** button.

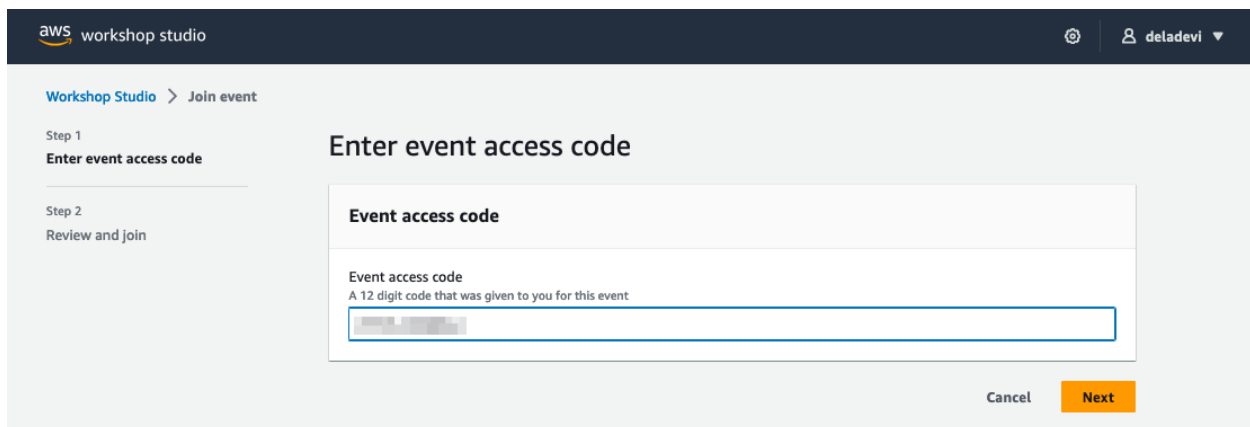

The screenshot shows the 'One-time email passcode' page. At the top left is the 'aws training and certification' logo, and at the top right is a language selector set to 'English'. The main content area is a light gray box containing a white card titled 'One-time email passcode' with the subtitle 'Send a passcode to the email below.'. Inside the card, there is an 'Email' label above a text input field. Below the input field are two buttons: 'Back' and 'Send passcode'. At the bottom left of the card is a link that says 'Get help signing in'.

3. In the email inbox, check the subject **Your one-time passcode** email and copy the passcode. Paste the copied passcode, then press the **Sign in** button.

The screenshot shows the AWS training and certification login page. At the top left is the AWS logo and 'training and certification' text. At the top right is a language dropdown menu set to 'English'. The main content area is a light gray box titled 'One-time email passcode'. Inside, it says 'We sent a passcode to deladevi@amazon.com. You should receive it within 5 minutes.' Below this is a label 'Passcode (9-digit)' followed by a blue link 'Resend passcode'. There is a text input field for the passcode. At the bottom of the box are two buttons: 'Back' and 'Sign in'. A blue link 'Get help signing in' is at the very bottom left of the box.

4. When you get to the Event Access code screen - enter the 12-digit **Event Access code** code you received from the event organizer. Click the **Next Button** to proceed.

The screenshot shows the AWS Workshop Studio interface. The top dark blue header has the 'aws workshop studio' logo on the left, a settings gear icon, and a user profile 'deladevi' with a dropdown arrow. Below the header, the breadcrumb 'Workshop Studio > Join event' is visible. On the left, a sidebar shows 'Step 1 Enter event access code' (highlighted) and 'Step 2 Review and join'. The main content area is titled 'Enter event access code'. It contains a box titled 'Event access code' with the text 'Event access code' and 'A 12 digit code that was given to you for this event'. Below this is a large text input field. At the bottom right of the main area are two buttons: 'Cancel' and 'Next' (which is orange).

5. On the next screen, check the **Accept Terms & Conditions** box. Click the **Join event** button to proceed to the next step.

Terms and Conditions

Read and accept before joining the event

1. By using AWS Workshop Studio for the relevant event, you agree to the [AWS Event Terms and Conditions](#) and the [AWS Acceptable Use Policy](#). You acknowledge and agree that are using an AWS-owned account that you can only access for the duration of the relevant event. If you find residual resources or materials in the AWS-owned account, you will make us aware and cease use of the account. AWS reserves the right to terminate the account and delete the contents at any time.
2. You will not: (a) process or run any operation on any data other than test data sets or lab-approved materials by AWS, and (b) copy, import, export or otherwise create derivate works of materials provided by AWS, including but not limited to, data sets.
3. AWS is under no obligation to enable the transmission of your materials through AWS Workshop Studio and may, in its discretion, edit, block, refuse to post, or remove your materials at any time.
4. Your use of AWS Workshop Studio will comply with these terms and all applicable laws, and your access to AWS Workshop Studio will immediately and automatically terminate if you do not comply with any of these terms or conditions.

6. Select the **Open AWS Console button** located on the left hand side of the screen to access the AWS Management Console page.

You will also find the links to core AWS services in the section above **AWS account access**

Once you've followed all of the steps above, you are ready to start the Hackathon!
